

Didactics Group Workshop
Dublin, 25th June 2013
(h.15.30-17.30)

Questionnaire

Teaching and Digital Technologies. Use of MOM-Ca Software

Many institutions, universities as well as archives, are already using the software MoM-Ca (<http://www.mom-ca.uni-koeln.de/mom/home>) and Monasterium.Net (www.monasterium.net) to teach Palaeography, Diplomatics, Medieval History and other Historical Sciences. Since 2008 there have been courses in Austria, France, Germany, Italy and the Czech Republic.

We would like to invite all Icarus members who are interested in starting using MoM-Ca for didactics or are just curious to fill in the questionnaire. We will be happy to get to know your specific demands and answer all your questions!

Please contact us at antonella.ambrosio@unina.it

You can visit our web page (Didactics group section): <http://www.recruitdigitaldoc.org/>

Name	
Surname	
Institution	
Function	
E-mail address	
Website or other informations	

1) What was the institutional frame of the course you held using MOM-Ca?
